

JADE KEVIN BALOCOS CALALO

SOFTWARE ENGINEER/ DATA ANALYST

✉ kevinbalocos03@gmail.com ☎ 09054651578 📍 San Pablo City, Laguna

👤 SUMMARY

Software Engineer with strengths in Full-Stack Web Development and Database Design. Develops userfriendly front-end interfaces and implements back-end functionalities to enhance system performance. Focuses on delivering customised software solutions that improve operational processes and client satisfaction. Motivated professional demonstrating strengths in technical problem-solving and collaborative project delivery. Adapts to evolving project demands through proactive engagement and effective communication. Committed to contributing to team success and continuous learning in the software development field.

📁 EXPERIENCE

Software Engineer/ Developer, Datalink Creative Solution Inc. 2025-07-21 - 2026-01-09

- Developed a paperless CRM platform to centralise customer data, transactions, and internal records.
- Built responsive and user-friendly front-end interfaces for staff and administrators.
- Implemented back-end functionalities, including authentication, data processing, and business logic.
- Designed and managed the database structure to ensure organised, secure, and efficient data storage.
- Created a records management system for a client to digitally store, track, and retrieve important documents. Improved operational efficiency by reducing manual paperwork and streamlining data access.
- Developed standard procedures for testing and validating software.
- Engaged in client consultations to gather precise requirements, ensuring the delivery of customised software solutions.
-
